Consolidated
Financial Statement

INDEPENDENT AUDITOR'S REPORT

To The Members of JSW Energy Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of JSW Energy Limited ("the Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as "the Group") which includes the Group's share of profit in its associate and a joint venture, which comprise the Consolidated Balance Sheet as at 31 March 2020, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Loss), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements / financial information of the subsidiaries referred to in sub-paragraph (a) of the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2020, and their consolidated profit, their consolidated total comprehensive loss, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate and joint venture in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the sub-paragraph (a) of the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matters to be communicated in our report.

Description of key audit matter

Disputed trade receivables:

The Group has certain disputes with customers regarding determination of tariff under power supply arrangements, which involve significant judgement to determine the possible outcome.

[Refer note 3 on the critical accounting judgements, note 13(4) on trade receivables and note 34(A)(1)(b) on contingent liability disclosures, in the consolidated financial statements]

Principle audit procedures:

- Evaluating the design and implementation, and testing the operating effectiveness of the relevant controls over recognition of revenue as per the terms of power supply arrangements and ongoing assessment of possible outcome in case of disputes.
- Evaluating the Management's assessment about possible outcome of disputes with customers with regard to determination of tariff by inquiry of the management including in-house legal counsel, reviewing minutes of the meetings of those charged with governance and reading legal advices / opinions obtained by the Group from the external experts, and independent confirmations from the external legal counsels on a test check basis.
- Assessing adequacy and appropriateness of the disclosures in the consolidated financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, Management Discussion and Analysis, Corporate Governance Report, Business Responsibility Report and other reports in the Annual Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries, is traced from their financial statements audited by the other auditors.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive loss, consolidated cash flows and consolidated changes in equity of the Group including its associate and joint venture in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of its associate and joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associate and its joint venture and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate and joint venture are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate and joint venture are also responsible for overseeing the financial reporting process of the Group and of its associate and joint venture.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate and joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate and joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate and joint venture to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

(a) We did not audit the financial statements/ financial information of 8 subsidiaries, whose financial statements / financial information reflect total assets of ₹ 15,269.18 crore as at 31 March 2020, total revenues of ₹ 4,327.13 crore and net cash inflows amounting to ₹ 209.31 crore for the year ended on that date, as considered in the consolidated financial statements, whose financial statements / financial information have not been audited by us. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

(b) We did not audit the financial statements/ financial information of 12 subsidiaries, whose financial statements / financial information reflect total assets of ₹ 134.86 crore as at 31 March 2020, total revenues of ₹ 45.83 crore and net cash outflows of ₹ 2.80 crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of ₹ 28.04 crore for the year ended 31 March 2020, as considered in the consolidated financial statements, in respect of an associate and a joint venture, whose financial statements / financial information have not been audited by us. These financial statements / financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, associate and joint venture, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements / financial information are not material to the Group.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements / financial information of the subsidiaries referred to in the Other Matters section above, we report, to the extent applicable, that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.

   c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Loss, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

   e) On the basis of the written representations received from the directors of the Parent as on 31 March 2020 taken on record by the Board of Directors of the Company and the report of the statutory auditors of the subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

   f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and the subsidiary companies incorporated in India to whom internal financial controls over financial reporting is applicable. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.

g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

   i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group;

   ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;

   iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies, incorporated in India.

ANNEXURE "A"

To The Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2020, we have audited the internal financial controls over financial reporting of JSW Energy Limited (hereinafter referred to as "the Parent") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Parent and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 8 subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matter.

Total		**895.76**		**474.43**

See accompanying notes to the consolidated financial statements

Note :

a. The statement of cash flows has been prepared under the indirect method as set out in Indian Accounting Standard (IndAS 7) - Statement of Cashflows.

b. Non-cash transaction:

i) The Group has entered into a debt resolution agreement with Jaiprakash Power Ventures Limited on January 2, 2020 to restructure the principal outstanding amount of ₹ 751.77 crore owed by them, wherein an amount of ₹ 351.77 crore were converted into equity shares of Jaiprakash Power Ventures Limited at par value of ₹ 10 each. [Refer note 8]

ii) The plan for acquisition of the 1000 MW (4 x 250 MW) thermal power plant located at village Tamnar, District Raigarh in the state of Chhattisgarh from Jindal Steel & Power Limited stands terminated on elapsing of the long stop date without completion of the stipulated conditions precedent. Accordingly, the interest-bearing advance paid and outstanding as at 31st March, 2019 of ₹ 331.13 crore has been converted into interest-bearing loan. [Refer note 34(B)(2)(i)]

Note No. 1 - General information:

JSW Energy Limited ("the Company" or "the Parent") is a public company incorporated on 10th March 1994 under the Companies Act, 1956 and listed on Bombay Stock Exchange and National Stock Exchange. The registered office of the Company is located at JSW Centre, Bandra Kurla Complex, Bandra (East), Mumbai, Maharashtra. The Company and its subsidiaries (together referred to as "the Group") are primarily engaged in the business of generation of power with principal places located at Vijayanagar (Karnataka), Ratnagiri (Maharashtra), Barmer (Rajasthan), Kinnaur (Himachal Pradesh), Nandyal (Andhra Pradesh) and Salboni (West Bengal). Further, the Group is having a joint venture company engaged in the mining activity and an associate engaged in the manufacturing of turbines.

Note No. 2.1 - Applicability of new and revised Indian Accounting Standards (Ind AS):

The Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified the following major amendments and new accounting standards, which became applicable with effect from April 1, 2019.

Ind AS 116 – Leases

Ind AS 116 replaced Ind AS 17. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Group has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, using the modified retrospective approach. (Refer note 36)

Appendix C to Ind AS 12 (Income Taxes) – Uncertainty over income tax treatment

The amendment requires an entity to assess whether it is probable that the relevant tax authority will accept an uncertain tax treatment used or proposed to be used, by the entity in its tax filings. The Company has currently carried out an assessment using the most likely amount or the expected value method, as applicable, for estimating the resolution of uncertain tax positions.

Ind AS / Amendments to existing Ind AS issued but not effective:

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Note No. 2.2 - Statement of compliance:

The Consolidated Financial Statements of the Group which comprise the Consolidated Balance Sheet as at 31st March, 2020, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended 31st March, 2020, and a summary of the significant accounting policies and other explanatory information (together hereinafter referred to as "Consolidated Financial Statements") have been prepared in accordance with Indian Accounting Standards notified under Section 133 of the Companies Act,2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time and guidelines issued by the Securities and Exchange Board of India (SEBI). The Consolidated Financial Statements have been approved by the Board of Directors in its meeting held on May 20, 2020.

Note No. 2.3 - Basis of preparation of consolidated financial statements:

The Consolidated Financial Statements are prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable to the Consolidated Financial Statements have been followed. The Consolidated Financial Statements are presented in Indian Rupees ('INR') which is functional currency of the Company, and all values are rounded to the nearest crore, except otherwise indicated.

Note No. 2.4 - Basis of consolidation

The Company consolidates the entities it owns or controls. Control is achieved where the Company:

I has power over the investee;

II is exposed to, or has rights, to variable returns from its involvement with the investee; and

III has the ability to use its power to affect its returns.

The Company reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than majority of the voting rights of an investee, it has power over the investee if the voting rights and other contractual terms are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including;

I the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

II potential voting rights held by the Company, other vote holders or other parties;

III rights arising from other contractual arrangements; and

IV any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of a subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed off during the year are included in the Consolidated Statement of Profit and Loss and Other Comprehensive Income from the date the Company gains control until the date when the control ceases.

Profit and loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Note No. 2.5 - Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in Consolidated Statement of Profit and Loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

I deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Taxes and Ind AS 19 Employee Benefits respectively;

II liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date; and

III assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in Consolidated Statement of Profit and Loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and its settlement is accounted for within equity.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In case of bargain purchase, before recognizing gain in respect thereof, the Group determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognizes any additional assets or liabilities that are identified in that reassessment. If the gain remains after this reassessment and review, the Group recognizes it in other comprehensive income and accumulates the same in equity as capital reserve. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognises the gain, after reassessing and reviewing, directly in equity as capital reserve.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in the Consolidated Statement of Profit and Loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method.

Note No. 2.6 - Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units or groups of cash-generating units that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in the Consolidated Statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate and a joint venture is described in the note below.

Note No. 2.7 - Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these Consolidated Financial Statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105 – Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, an investment in an associate or a joint venture is initially recognised in the Consolidated Financial Statement at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in Consolidated Statement of Profit and Loss in the period in which the investment is acquired.

The requirements of Ind AS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with Ind AS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with Ind AS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale.

When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with Ind AS 109. The difference between the carrying amount of the associate or joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities.

Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group applies Ind AS 109 Financial Instruments, to other financial instruments in an associate or joint venture including the one that form part of the net investment in the associate or joint venture.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's Consolidated Financial Statements only to the extent of interests in the associate or joint venture that are not related to the Group.

Note No. 2.8 - Significant accounting policies

I. Revenue recognition:

Revenue from contracts with customers is recognised when control of the goods (power) or services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services having regard to the terms of the Power Purchase Agreements, relevant tariff regulations and the tariff orders by the regulator, as applicable, and contracts for services.

Where the final tariff rates are yet to be approved by the regulator, revenue is recognised based on the provisional rates as provided by the regulator adjusted by the truing up adjustments under the relevant tariff regulations and presented as 'truing up revenue adjustments' in the Consolidated Balance Sheet. Any surplus or deficit is recognised when the final order is passed by the regulator.

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated having regard to various relevant factors including historical trend, and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Delayed payment charges and compensation towards shortfall in offtake are recognised on collection or earlier when there is reasonable certainty to expect ultimate collection.

II. Leases :

The Group has applied Ind AS 116 using the Retrospective Modified Approach and therefore comparative information has not been restated and is presented as per Ind AS 17. Details of accounting policies under both Ind AS 17 and Ind AS 116 are presented separately below.

Policy applicable from April 1, 2019:

The Group as lessor:

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease classification is made at the inception date and is reassessed only if there is a lease modification. Changes in estimates (for example, changes in estimates of the economic life or of the residual value of the underlying asset), or changes in circumstances (for example, default by the lessee), do not give rise to a new classification of a lease for accounting purposes. For a modification to a finance lease, if the lease would have been classified as an operating lease had the modification been in effect at the inception date, lease modification is accounted as a new lease from the effective date of modification and carrying amount of underlying asset is measured as the net investment in the lease immediately before the effective date of the lease modification.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as lessee:

The Group assesses whether a contract is or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether :

I the contract involves the use of an identified asset;

II the Group has substantially all of the economic benefits from use of the asset through the period of the lease, and

III the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (i.e. leases with a lease term of 12 months or less) and leases of low value assets (i.e. below ₹ five lakh). For short term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

For a contract that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Policy applicable prior to April 1, 2019:

Arrangements in the nature of lease:

An arrangement comprising a transaction or series of related transactions that does not take legal form of a lease but conveys the right to use the asset in return for a payment or series of payments is evaluated at its inception to assess whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and whether it also conveys the right to use such asset or assets. In case of the arrangement which is identified to be in the nature of lease, the payments and other consideration under the arrangement are separated at inception of the arrangement into those for lease and those for other elements.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor:

Amount due from the lessee under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Lease receipts are apportioned between finance income and reduction of the revenue so as to achieve a constant rate of interest on the remaining balance of the finance lease receivable. Finance lease income is allocated to the accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as lessee:

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments under an operating lease shall be recognised as an expense on a straight-line basis over the term of the relevant lease. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

III. Service concession arrangements:

The Group recognises intangible assets and/or financial assets in accordance with the terms of concession arrangements.

Intangible asset:

The right to charge users of the services under the arrangement is recognised and classified as intangible asset. The intangible asset, so recognised, is amortised over the period of service concession arrangement.

Financial assets:

The Group's unconditional right to receive specified determinable amounts under the agreement are recognised and classified as financial assets.

Finance income is recognised using effective interest rate method.

IV. Foreign currency transactions and foreign operations:

The Group's Consolidated Financial Statements are presented in Indian Rupee, which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in Consolidated Statement of Profit and Loss in the period in which they arise except for:

I exchange differences on transactions entered into in order to hedge certain foreign currency risks (see below the policy on hedge accounting in 2 (XVI) (g); and

II exchange difference arising on settlement / restatement of long-term foreign currency monetary items recognized in the Consolidated Financial Statements for the year ended 31st March, 2016 prepared under previous GAAP, are capitalized as a part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets. If such monetary items do not relate to acquisition of depreciable fixed assets, the exchange difference is amortised over the maturity period / upto the date of settlement of such monetary item, whichever is earlier and charged to the Consolidated Statement of Profit and Loss. The un-amortised exchange difference is carried under other equity as "Foreign Currency Monetary Item Translation Difference Account" net of tax effect thereon, where applicable.

V. Borrowing costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in Consolidated Statement of Profit and Loss in the period in which they are incurred.

The Group determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the period less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. If any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings. In case if the Group borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditure on that asset.

The Group suspends capitalisation of borrowing costs during extended periods in which it suspends active development of a qualifying asset.

VI. Employee benefits:

a) Short term employee benefits:

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

b) Long term employee benefits:

Compensated absences which are not expected to be availed or encashed within twelve months after the end of the period in which the employee renders the related service are recognised as a liability as at the Balance Sheet date on the basis of actuarial valuation using projected unit credit method.

c) Retirement benefit costs and termination benefits:

Defined contribution plans:

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Defined benefit plans:

For defined benefit retirement benefits plans, the cost of providing benefits is determined using the projected unit credit method, and spread over the period during which the benefit is expected to be derived from employees' services. Re-measurement of defined benefit plans in respect of post-employment and other long term benefits are charged to the Other Comprehensive Income. Actuarial valuations being carried out at the end of each annual reporting period for defined benefit plans.

The Group pays gratuity to the employees whoever has completed five years of service with the Group at the time of resignation/ superannuation. The gratuity is paid @ 15 days salary for the every completed year of service as per the Payment of Gratuity Act, 1972.

The Group makes monthly contributions to provident fund managed by trust for qualifying employees. Under the scheme, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits and the Group is obliged to meet interest shortfall, if any.

d) Share-based payment arrangements:

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in Consolidated Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

The Group has created an Employee Welfare Trust for providing share-based payment to its employees. The Group uses the Trust as a vehicle for distributing shares to employees under the employee remuneration schemes. The Trust buys shares of the Parent Company from the market, for giving shares to employees. The Group treats Trust as its extension and shares held by the Trust are treated as treasury shares.

VII. Taxation:

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax:

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961. Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance Sheet date.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Consolidated Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

A deferred tax asset arising from unused tax losses or tax credits (credit on account of Minimum Alternative Tax) is recognised only to the extent that the Group has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which the unused tax losses or unused tax credits can be utilised by the Group.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For operations carried out under tax holiday period (80IA benefits of Income Tax Act, 1961), deferred tax assets or liabilities, if any, have been established for the tax consequences of those temporary differences between the carrying values of assets and liabilities and their respective tax bases that reverse after the tax holiday ends.

Current tax and deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

In respect of regulated businesses where tariff is determined on cost plus return on equity and the income tax is a pass through, deferred tax recoverable from/adjustable against future tariff, when and to the extent such deferred tax becomes current tax in future periods, is presented separately, and is not offset against deferred tax.

VIII. Property, plant and equipment:

The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning.

Cost of major inspection/overhauling is recognised in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any remaining carrying amount of the cost of the previous inspection/overhauling (as distinct from physical parts) is de-recognised.

Properties in the course of construction are carried at cost, less any recognised impairment loss, as capital work in progress. Upon completion, such properties are transferred to the appropriate categories of property, plant and equipment and the depreciation commences.

Where an obligation (legal or constructive) exists to dismantle or remove an asset or restore a site to its former condition at the end of its useful life, the present value of the estimated cost of dismantling, removing or restoring the site is capitalized along with the cost of acquisition or construction upon completion and a corresponding liability is recognized.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Profit and Loss.

IX. Other intangible assets:

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Intangible assets with indefinite useful lives are carried at cost less accumulated impairment losses.

An intangible asset is derecognised on disposal, or when no further economic benefits are expected from use or disposal. Gain/loss on de-recognition are recognised in Consolidated Statement of Profit and Loss.

X. Depreciation and amortisation:

Depreciation commences when the assets are ready for their intended use. Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Regulatory business:

Depreciation on Property, plant and equipment in respect of electricity business of the Group covered under Part B of Schedule II of the Companies Act, 2013, has been provided on the straight line method at the rates using the methodology as notified by the respective regulators.

Non-Regulatory business:

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using straight-line method as per the useful lives and residual value prescribed in Schedule II to the Act except in case of the following class of assets wherein useful lives are determined based on technical assessment made by a technical expert engaged by the management taking into account the nature of assets, the estimated usage of assets, the operating conditions of the assets, anticipated technological changes, in order to reflect the actual usage:

Estimated useful lives of the assets are as follows:

Class of Property, plant and equipment	Useful life in Years
Buildings (factory buildings and civil structure)	12-35
Plant and equipment	2-35
Furniture and fixtures	6-15
Vehicles	5-10
Office equipment	3-15

When significant parts of property, plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives.

Freehold land is not depreciated. Leasehold land is amortized over the period of the lease, except where Leasehold land is acquired by the Group, with an option in the lease deed, entitling the Group to purchase on outright basis after a certain period at no additional cost is not amortized.

Major overhaul costs are depreciated over the estimated life of the economic benefit derived from the overhaul. The carrying amount of the remaining previous overhaul cost is charged to the Consolidated Statement of Profit and Loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

Mineral rights are amortised on a Unit of Production basis over the economically recoverable reserves of the mine concerned.

Computer software is amortised over an estimated useful life of 3 years.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

XI. Impairment of tangible and intangible assets other than goodwill:

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Consolidated Statement of Profit and Loss.

Any reversal of the previously recognised impairment loss is limited to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

XII. Inventories:

Inventories are stated at the lower of cost or net realizable value. Costs of inventories are determined on weighted average basis.

Cost of inventories includes cost of purchase price, cost of conversion and other cost incurred in bringing the inventories to their present location and condition.

Net realisable value represents the estimated selling price for inventories less all estimated cost of completion and cost necessary to make the sale. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. However, when a decline in the price of materials indicates that the cost of the finished products exceeds net realisable value, the materials are written down to net realisable value.

XIII. Earnings per share:

Basic earnings per share is computed by dividing the profit/(loss) for the year by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit/(loss) for the year as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date.

XIV. Provisions , contingencies and commitments:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A disclosure for contingent liabilities is made where there is :

(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or

(b) a present obligation that arises from past events but is not recognized because:

(i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

(ii) the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each reporting period.

Provisions for onerous contracts are recognized when the expected economic benefits to be received by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

XV. Financial guarantee contracts:

The Group provides certain guarantees in respect of the indebtedness of other undertakings, claims under the contract or other arrangements in the ordinary course of business. The Group evaluates each guarantee arrangement and elects to account it as an insurance contract or a financial guarantee contract.

Financial guarantee contract liabilities are measured initially at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of the amount of the obligation under the contract and the amount initially recognised less cumulative amortisation over the period of guarantee.

For the guarantee arrangements designated as insurance contracts, at the end of each reporting period, the Group performs a liability adequacy test, (i.e. it assesses the likelihood of a pay-out based on current undiscounted estimates of future cash flows), and any deficiency is recognized in Consolidated Statement of Profit and Loss.

XVI. Financial instruments:

Financial assets and financial liabilities are recognised when a Group entity becomes a party to the contractual provisions of the instruments.

(a) Equity Investments

All equity investments are measured at fair value, with value changes recognised in Consolidated Statement of Profit and Loss, except for those equity investments for which the Group has elected to present the value changes in 'Other Comprehensive Income'

(b) Financial assets:

(i) Initial recognition and measurement:

All financial assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through Consolidated Statement of Profit and Loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

(ii) Subsequent measurement:

Financial assets carried at amortised cost - A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI) - A financial asset is measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL) - A financial asset which is not classified in any of the above categories are fair valued through Consolidated Statement of Profit and Loss.

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

(a) the entity's business model for managing the financial assets and

(b) the contractual cash flow characteristics of the financial asset.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria, may be designated as at FVTPL as at initial recognition if such designation reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

(iii) Impairment:

The Group recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVTOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable information including that which is forward-looking.

The Group's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Group does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables.

The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets other than trade receivables, the Group recognises 12–months ECL for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The ECL are measured as lifetime ECL if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Group reverts to recognizing impairment loss allowance based on 12 months ECL. The impairment losses and reversals are recognised in Consolidated Statement of Profit and Loss. For equity instruments and financial assets measured at FVTPL, there is no requirement for impairment testing.

(iv) Derecognition:

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in Consolidated Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Consolidated Statement of Profit and Loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

(v) Income from Financial Assets

Dividend and interest income:

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(c) Financial liabilities and equity instruments:

(i) Classification as debt or equity:

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(ii) Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Parent Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in Consolidated Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Parent Company's own equity instruments.

(iii) Initial recognition and measurement:

All financial liabilities are recognized initially at fair value and in case of loans net of directly attributable cost. Fees of recurring nature are directly recognised in Consolidated Statement of Profit and Loss as finance cost.

(iv) Subsequent measurement:

Financial liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(v) Derecognition:

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in Consolidated Statement of Profit and Loss.

(d) Derivative financial instruments:

The Group uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Consolidated Statement of Profit and Loss.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in consolidated statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in Consolidated Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

The contracts to buy or sell a non-financial item that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements are not considered as derivative instruments.

(e) Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(f) Fair Value measurement:

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

i) In the principal market for the asset or liability, or

ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(g) Hedge accounting:

The Group designates certain hedging instruments, which include derivatives in respect of foreign currency, as either cash flow hedge or fair value hedge. Hedges of foreign currency risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the Group entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to hedged risk.

(i) Fair value hedges:

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognized in Consolidated Statement of Profit and Loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in the hedged item attributable to hedged risk are recognized in Consolidated Statement of Profit and Loss in the line item relating to the hedged item.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to Consolidated Statement of Profit and Loss from that date.

(ii) Cash flow hedges:

The effective portion of changes in fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in Consolidated Statement of Profit and Loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to effective portion as described above are reclassified to Consolidated Statement of Profit and Loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains or losses are transferred from equity (but not as a reclassification adjustment) and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in Consolidated Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in Consolidated Statement of Profit and Loss.

Note No. 3 - Key sources of estimation uncertainty and critical accounting judgements:

The preparation of Consolidated Financial Statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of these Consolidated Financial Statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key sources of estimation uncertainties

Useful lives and residual value of property, plant and equipment

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency, the estimated usage of the asset, the operating condition of the asset, anticipated technological changes, historical trend of plant load factor, historical planned and scheduled maintenance etc. It is possible that the estimates made based on existing experience are different to the actual outcomes within the next financial periods and could cause a material adjustment to the carrying amount of property, plant and equipment.

Provisions and Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised. Potential liabilities that are remote are neither recognized nor disclosed as contingent liability. The management decides whether the matters needs to be classified as 'remote,' 'possible' or 'probable' based on expert advice, past judgements, terms of the contract, regulatory provisions etc.

Fair value measurements

When the fair values of financial assets or financial liabilities recorded or disclosed in the financial statements cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include consideration of inputs such as liquidity risk, credit risk and volatility.

Income Taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. In assessing the realizability of deferred tax assets arising from unused tax credits, the management considers convincing evidence about availability of sufficient taxable income against which such unused tax credits can be utilized. The amount of the deferred income tax assets considered realizable, however, could be reduced if estimates of future taxable income during the carry forward period are reduced.

Defined benefit plans

The present value of defined benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual development in the future. These include the determination of the discount rate, future salary escalations and mortality rates etc. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. In considering the value in use, the management has made assumption relating to plant availability, plant load factor, useful life of the assets, additional capacity and capital cost approval from the regulators, expected renewals/ extension of power purchase agreement/ implementation agreement, input cost escalations, operational margins etc. for arriving at the future cash flows expected to arise from the cash-generating units, and discount rates in order to calculate the present value of such cash flows. Any subsequent changes to the cash flows due to changes in the above mentioned factors could impact the carrying value of the goodwill.

Impairment assessment of intangible assets:

Impairment assessment of intangible assets (mining rights related coal mines at South Africa) involves assumptions relating to timing of resumption of commercial operations, mineable reserves / resources, annual production, yield, future prices of coal, renewal of mining licenses, operational margins, and discount rate. Any subsequent changes in the assumptions could impact the carrying value of the assets.

Loss allowance assessment for a loan/guarantee given to a related party:

Recoverability of loans given to and non-devolvement of financial guarantee given on behalf of, a related party serving as a mine development operator for lignite mine of a joint venture entity is assessed on the basis of its net worth as on 31st March, 2020 and projected cash flows derived on the presumption that it will continue as the operator having regard to it being selected as the preferred bidder even in the fresh competitive bidding process carried out as per the regulator's direction.

Expected credit loss

The policy for expected credit loss allowances for financial assets is based on the evaluation of collectability and the management's judgement considering external and internal sources of information. A considerable amount of judgement is required in assessing the ultimate realization of the loans having regard to, the past collection history of each party and ongoing dealings with these parties, and assessment of their ability to pay the debt on designated dates.

Onerous contract:

While ascertaining the unavoidable costs of meeting the obligations under a power purchase contract, the Group has exercised it's significant judgement in terms of anticipating the future coal prices, plant load factor, component of unavoidable cost and it's escalations.

Critical judgements in applying accounting policies

Evaluation of contracts to determine whether it contains lease arrangements:

a) In respect of power plant unit at Ratnagiri, Maharashtra, while assessing the applicability of the principles relating to arrangements in the nature of lease prescribed under Ind AS 116, Leases, the management has exercised judgements in evaluating the customer's right to use the underlying asset and pricing terms of the arrangement to reach a conclusion that the arrangement for supply of power through aforesaid power plant unit is in the nature of lease.

b) The management has critically evaluated the terms of the contract (including by obtaining independent legal advice) with respect to Karcham Hydro Plant to determine whether the contract is, in substance, with a customer or with multiple state electricity utility companies, and the customer is merely acting as an intermediator/facilitator, i.e. an agent. Based on such evaluation, it was concluded that the arrangement, in substance, is not in the nature of lease in terms of Ind AS 116, Leases.

Service concession arrangements:

In assessing the applicability of Appendix D of Ind AS 115: 'Service Concession Arrangements', the management has exercised significant judgments in evaluating the useful lives of the assets and the terms of power purchase agreements / transmission license arrangements / other similar implementation arrangements/provisions of the Electricity Act, 2003 towards, the ability to enter into power purchase arrangements with any customer, power supply and pricing terms and related rights beneficial entitlement in the related infrastructure, useful lives of the assets and obligation to transfer the asset at the end of arrangement etc. Based on such evaluation, the management has determined that only arrangement in respect of a Hydro power plant at Himachal Pradesh of the Group meets the criterion for recognition as service concession arrangement.

Classification of Barmer Lignite Mining Company Limited ("BLMCL") as joint venture:

BLMCL is a limited liability company having separate legal identity. Furthermore, there is no contractual arrangement or any other facts and circumstances that indicate that the parties to the joint arrangement have rights to the assets and obligation for the liabilities of the joint arrangement. Accordingly, keeping in view that decisions about the relevant activities of BLMCL contractually requires unanimous consent of both the parties irrespective of their share in voting rights, it is classified as a joint venture of the Group.

Revenue recognition:

The Group has exercised significant judgements in determination of tariff entitlement as per relevant contractual terms/governing tariff regulations due to ongoing disputes with customers having regard to legal advice, judicial precedence and possible interpretation of the contracts. The final outcome of such disputes may have impact on the revenue recognised by the Group.

NOTES

to the Consolidated Financial Statements for the year ended 31st March, 2020

Notes:

a. *The Group has leased under operating lease arrangements certain land admeasuring to 122.86 acres (as at 31st March, 2019 - 122.86 acres) with carrying value aggregating to ₹ 7.08 crore (as at 31st March, 2019 - ₹ 7.08 crore) to certain related parties for a period ranging from 25 to 99 years.*

b. *Includes net carrying value of ₹ 429.89 crore (as at 31st March, 2019 - ₹ 446.74 crore) being cost of office premises located at Mumbai, jointly owned (50%) with a related party.*

c. *Includes net carrying value ₹ 100 (as at 31st March, 2019 - ₹ 100) towards Group's share of water supply system, jointly owned (50%) with a related party, constructed on land not owned by the Group.*

d. *Includes net carrying value ₹ 213.03 crore (as at 31st March, 2019 - ₹ 221.28 crore) being cost of pooling station and transmission line constructed on land not owned by the Group.*

e. *Includes net carrying value ₹ 0.58 crore (as at 31st March, 2019 - ₹ 0.76 crore) towards alternate road build on land not owned by the Group.*

f. *Includes net carrying value ₹ 16.28 crore (as at 31st March, 2019 - ₹ 19.55 crore) towards transmission line not owned by the Group.*

g. *Additions include foreign exchange loss of ₹ Nil (as at 31st March, 2019 - ₹ 3.15 crore).*

h. *Transfer of title/deeds in case of freehold and leasehold land in the name of subsidiary company, JSW Hydro Energy Limited, is in process.*

i. *Reclassified to prepayments upon lapse of the option to purchase the leasehold land on an outright basis after 10 years from the date of the lease deed (Refer note 11).*

j. *The right-of-use assets relates to land, office premises and residential flats. Refer note 2.1, note 17 and note 36 for the details of transition to Ind AS 116 under the modified retrospective approach.*

k. *Refer note 16 for the details in respect of certain property, plant and equipment hypothecated / mortgaged as security against borrowings.*

Note No. 4B - Capital work in progress :

Capital work in progress and pre operative expenditure during construction period (pending allocation) relating to property, plant and equipment

₹ crore

At cost	
Balance as at 31st March, 2019	**399.97**
Balance as at 31st March, 2020	**391.32**

Notes:

1) *Includes ₹ 267.74 crore (as at 31st March, 2019 ₹ 259.53 crore) cost incurred for Kutehr hydro project in Himachal Pradesh. (Refer note 40)*

2) *Amount transferred to property, plant and equipment during the year ₹ 54.45 crore (Previous year ₹ 127.38 crore)*

3) *Amount transferred to Consolidated Statement of Profit and Loss during the year ₹ 0.53 crore (Previous year ₹ Nil)*

4) *Refer note 16 for the details in respect of capital work-in-progress hypothecated / mortgaged as security against borrowings.*

Note No. 5 - Goodwill

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
I. At cost		
Balance at the beginning of the year	**644.79**	**645.03**
Effect of foreign currency exchange differences	-	(0.24)
Balance at the end of the year (a)	**644.79**	**644.79**
II. Accumulated impairment		
Balance at the beginning of the year	**4.97**	**5.21**
Effect of foreign currency exchange differences	-	(0.24)
Balance at the end of the year (b)	**4.97**	**4.97**
Carrying amount (a-b)	**639.82**	**639.82**

Allocation of goodwill to cash generating units (CGU's)

For the purpose of impairment testing, goodwill is allocated to the Group's operating assets, which represents the lowest level within the Group at which goodwill is monitored for internal management purposes. Carrying amount of goodwill allocated to each CGUs is as follows:

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
I. Hydro Power plant at Karcham, Himachal Pradesh, India	526.34	526.34
II. Hydro Power plant at Baspa, Himachal Pradesh, India	113.48	113.48
Carrying amount	**639.82**	**639.82**

Estimates used to measure recoverable amounts of Hydro Power Plants

The recoverable amount of Karcham and Baspa hydro power plants have been determined following 'value in use' approach over tenure (including expected renewals) of respective long term power purchase agreements (PPA) / implementation agreement.

The key assumptions used in the value-in-use calculations are as follows:

Key assumptions	Hydro Power Plant at Karcham	Hydro Power Plant at Baspa	Basis
Discount rate	11.20% (13.49%)	11.20% (13.49%)	Pre-tax discount rate has been derived based on current cost of borrowing and equity rate of return in line with the current market expectations.
Plant availability	97.08% (100%)	97.22% (97.90%)	Plant availability factor (PAF) is estimated based on past trend of PAF and expected PAF in future years.
Plant load factor	49.31% (47.09%)	50.99% (50.99%)	Plant load factor (PLF) is estimated based on past trend of PLF and expected PLF in future years.
PPA tenure (including expected renewals)	52 Years (53 Years)	22 Years (23 Years)	Balance useful life based the plants' useful life assessment of the management / external expert.
Tariff	As per CERC tariff regulation 2019-24	-	- Tariff basis continuity of existing notified tariff provisions/PPA - Economic benefits basis the expectation of approval of additional capacity of 91 MW in the year 2021-22 by Central Electricity Authority and Ministry of Environment and Forest for Karcham power plant.

(Figures / information in brackets relate to previous year)

Sensitivity to changes in assumptions:

The management has considered that any reasonable possible change in any one of the key assumptions would not result into carrying amount to exceed the recoverable amounts of the afore-mentioned hydro power plants.

$ The Group has entered into a debt resolution agreement with Jaiprakash Power Ventures Limited ("JPVL") on January 2, 2020 to restructure the principal outstanding amount of ₹ 751.77 crore owed by JPVL. The key terms of the agreement are as follows:

1 An amount of ₹ 351.77 crore to be converted into equity shares of JPVL at par value of ₹ 10 each.

2. Out of the balance outstanding principal amount of ₹ 400 crore, claim of ₹ 280 crore has been waived and relinquished by the Group and balance ₹ 120 crore to continue as debt to be paid by JPVL to the Group, on priority basis, out of the available cash flows after JPVL has paid 10% of the re-structured sustainable debt to its secured lenders.

Accordingly, a net amount of ₹ 116.02 crore was written off during the year and considered as exceptional items.

Further, JPVL and the Group have agreed to waive their respective rights to receive any payments from each other and unconditionally release each other from all liabilities in relation to the Securities Purchase Agreement dated 16th November, 2014 for transfer of Karcham and Baspa hydro assets from JPVL to the Group. This has resulted in reversal of an amount of ₹ 177.48 crore of contingent consideration payable to JPVL towards purchase of shares of JSW Hydro Energy Limited (earlier known as Himachal Baspa Power Company Limited) in the Group's consolidated financial statements.

(Figures in brackets relate to maximum amount outstanding during the year)

All the above loans have been given for business purpose only.

Subordinated debt to Barmer Lignite Mining Company Limited:

JSW Energy (Barmer) Limited ("JSWEBL") had given a subordinated loan of ₹ 567.64 crore (as at 31st March, 2019 ₹ 567.64 crore) to Barmer Lignite Mining Company Limited, a joint venture ("BLMCL") of JSWEBL. Such loan carries an interest rate of 10% p.a. and is re-payable after the repayment of existing secured rupee term loan of BLMCL i.e in FY 2038-39. There have been certain delays in payment of interest of ₹ 352.59 crore (as at 31st March, 2019 ₹ 378.90 crore) by BLMCL as certain clarifications were sought by Comptroller and Auditor General of India (CAG) from Government of Rajasthan (GoR) which have since been provided by GoR, and BLMCL can make interest payment on the aforesaid loan. JSWEBL also has right to convert the accrued interest into interest bearing subordinated loan at any point of time. In lieu of the expected approval of entire capital cost and lenders approval already received, expected credit loss allowance of ₹ 32.69 crore towards the accrued interest recognised in the previous year has been carried in consolidated financial statements. (Refer note 9)

> 180 days	287.24	244.20
	2,103.20	**1,427.75**

2] The average credit period allowed to customers is in the range of 30-45 days and interest on overdue receivable is generally levied at 8.15% to 15% per annum as per the terms of the agreement.

3] The Group does not have history of defaults in trade receivables. Loss allowance is estimated for disputed receivables based on assessment of each case by obtaining legal advise, where considered necessary.

4] Trade receivables include ₹ 189.98 crore (as at 31st March 2019 ₹ 219.30 crore) withheld / unpaid by the customers because of tariff related disputes which are pending adjudication by the appropriate authority [Refer note 34(A)(1)(b)]. The Group has, based on legal advice, and subsequent actions by the regulators in certain cases, assessed that there is a reasonable certainty about recoverability of these receivables and no provision is required. These matters are at advanced stage of hearing with the regulators/courts and the management is expecting to realise the amounts within a year.

5] Refer note 16 for trade receivables hypothecated as security against borrowings.

	797.22	**1,883.83**
Total other equity	**10,003.72**	**10,181.37**

(i) General reserve : The Group created a general reserve in earlier years pursuant to the provisions of the Companies Act, wherein certain percentage of profits were required to be transferred to general reserve before declaring dividend. As per Companies Act 2013, the requirement to transfer profits to general reserve is not mandatory. General reserve is a free reserve available for distribution subject to compliance with the Companies (Declaration and Payment of Dividend) Rules, 2014.

(ii) Retained earnings : Retained earnings comprise balances of accumulated (undistributed) profit and loss at each year end and balances of remeasurement of net defined benefit plans, less any transfers to general reserve.

(iii) Securities premium : Securities premium comprises premium received on issue of shares.

(iv) Equity settled employee benefits reserve : The Group offers ESOP under which options to subscribe for the Company's share have been granted to certain employees and senior management. The share based payment reserve is used to recognise the value of equity settled share based payments provided as part of the ESOP scheme.

(v) Debenture redemption reserve : The Indian Companies Act requires companies that issue debentures to create a debenture redemption reserve from annual profits until such debentures are redeemed. The Companies are required to maintain 25% as a reserve of outstanding redeemable debentures. The amounts credited to the debenture redemption reserve may not be utilised except to redeem debentures. However, during the year the requirement to create the debenture redemption reserve has been withdrawn.

(vi) Contingency reserve : The contingency reserve has been created out of profit of Jaigad PowerTransco Limited, a subsidiary company, as per MERC Regulations. The reserve can be utilised by the group for the purpose of future losses, which may arise from uninsured risks.

(vii) Equity instrument through other comprehensive income : The fair value change of the equity instruments measured at fair value through other comprehensive income is recognised in equity instruments through other comprehensive income.

(viii) Foreign currency translation reserve : This reserve contains the accumulated balance of foreign exchange differences arising on monetary items that, in substance, form part of the Group's net investment in a foreign operation whose functional currency is other than indian rupees. Exchange differences previously accumulated in this reserve are reclassified to profit or loss on disposal of the foreign operation.

(ix) Effective portion of cash flow hedge : Effective portion of cash flow hedges represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into for cash flow hedges, which shall be reclassified to profit or loss only when the hedged transaction affects the profit or loss.

Note No - 22 - Revenue from operations

₹ crore

Particulars		For the year ended 31st March, 2020	For the year ended 31st March, 2019
I.	**Disaggregation of revenue from contract with customers:**		
(1)	Sale of power:		
	Own generation	7,856.57	8,729.45
	Traded	37.95	64.71
(2)	Income from transmission	80.38	80.78
(3)	Sale of services:		
	Operator fees	185.18	169.06
	Other services	0.09	0.52
(4)	Other operating revenue		
	Sale of fly ash	15.99	3.05
	Others	0.14	2.55
	Total revenue from contracts with customers (A)	**8,176.30**	**9,050.12**
II.	**Interest income on assets under finance lease (B) (Refer note 37)**	**68.72**	**61.32**
III.	**Income from service concession arrangement (C) (Refer note 38)**	**27.69**	**26.15**
(A + B +C)		**8,272.71**	**9,137.59**

(a) Revenue from Contract with Customers:

The Group primarily generates revenue from contracts with customers for supply of power generated from power plants (including from allocating the capacity of the plant under the long / medium term power purchase agreements), from sale of power on short term contracts/merchant basis , from allocation of capacity of transmission lines, from power trading and from providing operations and maintenance services of third party power plants.

Revenue from capacity charges (other than from contracts classified as lease and service concession arrangements) under the long and medium term power supply agreements and under long term agreements for transmission lines, is recognised on a monthly / yearly basis as the capacity of the plant or transmission lines, as the case may be, is made available under the terms of the contracts. Incentives and penalties for variation in availability of the capacity are recognised based on the annual capacity expected to be made available under the agreements. Energy charges are recognised on supply of power under such power supply agreements.

Revenue from sale of power on merchant basis and under short term contracts, and from power trading activity, is recognised when power is supplied to the customers.

Revenue from third party power plant operations and maintenance activity is recognised when services under the contracts are rendered.

(b) Significant changes in the contract liability balance and unbilled revenue during the year are as follows:

₹ crore

Contract liability - Advance from customer	As at 31st March, 2020	As at 31st March, 2019
Opening Balance	**28.59**	**23.35**
Less: Revenue recognised during the year from balance at the beginning of the year	(28.59)	(23.35)
Add: Advance received during the year not recognized as revenue	23.69	28.59
Closing Balance	**23.69**	**28.59**

Contract liability is the Group's obligation to transfer goods or services to a customer for which the Group has received consideration from the customer in advance.

₹ crore

Unbilled revenue	As at 31st March, 2020	As at 31st March, 2019
Opening Balance	**1.43**	**-**
Less: Billed during the year	1.43	-
Add: Unbilled during the year	5.81	1.43
Closing Balance	**5.81**	**1.43**

(c) Details of Revenue from Contract with Customers:

₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Total revenue from contracts with customers as above	**8,176.30**	**9,050.12**
Add: Rebate on prompt payment	26.36	46.41
Less: Incentives	78.21	67.44
Total revenue from contracts with customers as per contracted price	**8,124.45**	**9,029.09**

(d) Credit terms:

Customers are given average credit period of 30 to 45 days for payment. No delayed payment charges ('DPC') are charged for the initial 30 days from the date of receipt of invoice by customers. Thereafter, DPC is recoverable from the customers at the rates prescribed under the respective Power Purchase Agreement/Tariff regulations on the outstanding balance.

(e) Others:

i) As per the implementation agreement between Government of Rajasthan and JSW Energy (Barmer) Limited ("JSWEBL"), the sale price of lignite by Barmer Lignite Mining Company Limited, a joint venture, to JSWEBL has to be approved by RERC. Pending determination of transfer price of lignite (as the capital cost of lignite mine and mine development operator of BLMCL is yet to be approved by RERC), RERC has allowed only adhoc/interim transfer prices for JSWEBL's tariff. Such adhoc/ interim transfer prices (to the extent subsequently modified by APTEL, as the case may be) have been kept as a base for revenue recognition by JSWEBL and subject to adjustment, once the final tariff is determined by RERC.

Tax expense for the year	**(71.14)**	**207.10**

 # Pursuant to the Taxation Law (Amendment) Ordinance, 2019 ('Ordinance') subsequently amended in Finance Act issued by Ministry of Law and Justice (Legislative Department) on 20th September, 2019 which is effective 1st April, 2019, domestic companies have the option to pay corporate income tax rate at 22% plus applicable surcharge and cess ('New tax rate') subject to certain conditions. During the year ended 31st March, 2020, the Company and certain subsidiaries had made an assessment of the impact of the Ordinance and decided to continue by with the existing tax structure until utilisation of accumulated minimum alternative tax (MAT) credit. Based on the detailed assessment carried out by the management, deferred tax liabilities on temporary differences expected to reverse during the period in which the Company and certain subsidiaries would be under the new tax regime and accordingly applied the new rate for measuring the said deferred tax liabilities in accordance with the requirements of IND AS 12 - "Income Taxes". This has resulted in reversal of deferred tax liabilities amounting to ₹ 276.81 crore. A corresponding tax adjustment in future tariff of ₹ 111.63 crore (net) is recognised in respect of certain subsidiaries.

Deferred tax assets / (liabilities)

Significant components of deferred tax assets / (liabilities), deductible temporary differences and unused tax losses recognised in the financial statements are as follows :

₹ crore

Note No. 34 - Contingent liabilities and commitments:

A) Contingent liabilities (to the extent not provided for)

1] Claims against the Group not acknowledged as debt:

a) Disputed claims / levies (excluding interest, penalty, if any) in respect of:

₹ crore

	Particulars	As at 31st March, 2020	As at 31st March, 2019
(i)	Custom duty [₹ 27.30 crore paid under protest (as at 31st March, 2019 ₹ 27.30 crore)]#	240.65	240.65
(ii)	Electricity tax [recoverable from customers as per agreements in case of unfavourable outcome]	122.76	122.76
(iii)	Income tax	90.31	93.71
(iv)	Entry tax	0.84	0.84
(v)	Service tax [₹ 14.02 crore paid under protest (as at 31st March, 2019 ₹ 14.80 crore)]#	32.53	34.20
(vi)	Survey and investigation work [Paid under protest against these claim of ₹ 25 crore (as at 31st March, 2019 of ₹ 25 crore)]	127.84	127.84
(vii)	Goods & Service Tax [₹ 17.16 crore paid under protest (as at 31st March, 2019 ₹ Nil)]#	18.79	-
(viii)	Others [₹ 1.22 crore paid under protest (as at 31st March, 2019 ₹ 0.90 crore)]#	14.90	18.44
Total		**648.62**	**638.44**

 # Amount paid under protest is included in balances with government authorities, refer note 11

b) For disputes with customers regarding determination of tariff under power supply arrangements aggregating to ₹ 530.21 crore (as at 31st March, 2019 ₹ 563.78 crore) (refer note 13)

2] Guarantees:

The Group has issued financial guarantees to banks on behalf of and in respect of loan facilities availed by a related party. The following are the loan amount against such guarantees.

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Related party	249.75	200.50

In respect of financial guarantee contracts, no amounts are recognised based on the results of the liability adequacy test for likely deficiency / defaults by the entities on whose behalf the Group has given guarantees.

3] **Others :**

In respect of land parcels admeasuring 35.88 hectares (as at 31st March, 2019 47.21 hectares), acquired by the Group, the claim by certain parties towards title disputes is not currently ascertainable.

4] **The Group's share of the contingent liabilities relating to its joint venture, Barmer Lignite Mining Company Limited (BLMCL) is as follows:**

(i) **Claims not acknowledged as debt**

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
VAT	0.97	0.97
Income tax	12.73	3.82
Service tax	-	128.55
Others	39.68	32.58
Total	**53.38**	**165.92**

(ii) Few land owners have gone to the court for claiming enhanced rate of compensation from Rajasthan State Mines and Minerals Limited ("RSMML"), a co-venturer, through which land for the mine has been acquired. In case, if such enhanced compensation is approved by the court, BLMCL will have to reimburse the same to RSMML. The amount of compensation is undeterminable as on date.

(iii) As per the implementation agreement between Government of Rajasthan and JSW Energy (Barmer) Limited ("JSWEBL"), the sale price of lignite by BLMCL to JSWEBL has to be approved by Rajasthan Electricity Regulatory Commission ("RERC"). Pending determination of transfer price of lignite, RERC has allowed only adhoc/interim transfer prices. Correspondingly, BLMCL is accruing proportionate reduced lignite extraction cost in terms of its mine development operator ("MDO") arrangement. The accumulated amount as at 31st March 2020 between contracted MDO price for lignite extraction and adhoc/interim lignite transfer price is ₹ 1,629.58 crore (As at 31st March 2019 ₹ 1,602.75 crore). Such payment to MDO is contingent upon approval of final transfer price of lignite by RERC, which would also result into corresponding higher revenue for BLMCL. There shall be no additional financial implication to BLMCL on this account.

5] The Group has already recognised its share of losses equivalent to its interest in an associate and hence, the Group has no further exposure. Accordingly, the share in the contingent liability of the associate amounting to ₹ 1.02 crore (As at 31st March, 2019 ₹ 1.29 crore) is not reckoned with by the Group.

Notes:

(i) Future cash flows in respect of the above matters are determinable only on receipt of judgements / decisions pending at various forums/authorities.

(ii) Third party claims where the possibility of outflow of resources embodying economic benefits is remote, and includes show cause notices, if any which have not yet converted to regulatory demands, have not been disclosed as contingent liabilities.

B) Commitments

₹ crore

Particulars		As at 31st March, 2020	As at 31st March, 2019
1]	Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances)	1,151.44	63.86

2] Other commitments:

(i) The Group had entered into a definitive agreement to acquire 1000 MW (4 x 250 MW) thermal power plant located at village Tamnar, District Raigarh in the state of Chhattisgarh from Jindal Steel & Power Limited with the revised long stop date of 30th June 2019. With the elapsing of the long stop date without completion of the stipulated conditions precedent, the proposed acquisition of the said power plant stands terminated. Accordingly, the interest-bearing advance paid for the said transaction has been converted into interest-bearing loan and the amount outstanding as at 31st March, 2020 is ₹ 261.13 crore (as at 31st March, 2019 ₹ 331.13 crore).

(ii) The Group has signed a Share Purchase Agreement with GMR Energy Limited for acquiring 100% shares of its subsidiary GMR Kamalanga Energy Limited ("GKEL") which owns and operates a 1050 MW (3 X 350 MW) thermal power plant in Odisha. The transaction contemplates a payout of consideration of ₹ 5,321 Crore for acquisition of 100% stake of the GKEL (subject to working capital and other adjustments). The transaction has been put on hold given the ongoing uncertainty of COVID 19 and will be revisited once the situation normalizes.

(iii) The Group has received Letter of Intent pursuant to the approval of its Resolution Plan from Committee of Creditors of Ind Barath Energy (Utkal) Limited. The Resolution Plan is under approval with the National Company Law Tribunal, Hyderabad Bench.

(iv) In accordance with joint venture agreement, JSW Energy (Barmer) Limited shall make all investments in the joint venture company and Rajasthan State Mines and Minerals Limited (co-venturer) shall have no financial liability.

3] The Group's share of the capital commitments made by its joint venture (BLMCL) is as follows: ₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Commitments to contribute funds for the acquisition of property, plant and equipment (net of advances)	26.11	123.78

Note No. 35 - Provisions:

1) Provision for decommissioning and environmental rehabilitation: ₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Opening balance	**25.47**	**29.74**
Additional provisions recognised	28.55	-
Effect of foreign currency exchange differences	(6.66)	(4.27)
Closing balance	**47.36**	**25.47**

The provision for mine restoration, decommissioning and environmental rehabilitation represents the management's best estimate of the future outflow of economic benefits that will be required under the Group's obligations under local legislation. The estimate has been made on the basis of historical trends and may vary as a result of future escalation of labour and overhead costs.

2) Provision for liabilities of a joint venture ₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Opening balance	**17.51**	**49.44**
Additional provisions recognised/(reversed)	(17.51)	(31.93)
Closing balance	**-**	**17.51**

The provision for liabilities of a joint venture represents the Group's obligation, as per the joint venture agreement, for the financial liability of the the joint venture over and above the Group's shareholding.

3) Other provisions ₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Opening balance	**23.43**	**24.19**
Additional provisions recognised/(utilised)	(19.41)	(0.76)
Closing balance	**4.02**	**23.43**

Note No. 36 - Operating Leases:

a) As lessor:

The Group has leased certain land admeasuring to 122.86 acres with carrying amount of ₹ 7.08 crore (31st March, 2019: 122.86 acres with carrying amount of ₹ 7.08 crore) to related parties for the period ranging from 25 to 99 years. The agreements are renewable with mutual consent. (Refer note 4A)

The Group has constructed solar plants of 8.91MW with a carrying amount of ₹ 39.67 crore (31st March, 2019 : ₹ 40.87 crore) considered as an operating lease as per the provisions of Ind AS 116 - Leases. The lease rentals on the plants are variable in nature.

b) As lessee :

i) The Group leases severals assets including land, office premises and residential flats. The amount recognised in the consolidated statement of profit and loss in respect of right of use assets and lease obligation are as under:

₹ crore

Particulars	For the year ended 31st March, 2020
Depreciation	5.08
Interest expense on lease liabilities	2.46

ii) The agreements are executed on non-cancellable basis for a period of 3-50 years, which are renewable on expiry with mutual consent.

Future minimum rentals payable under non-cancellable operating leases as follows:

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Within one year	3.11	0.08
After one year but not more than five years	10.46	0.13
More than five years	51.51	-
	65.07	**0.21**

Note No. 37 - Finance leases:

As lessor:

The Group has identified an arrangement for power supply from one of its power unit which is in the nature of finance lease as per the provisions of Ind AS 116- Leases. After separating lease payments from other elements in the arrangement, the Group has recognized finance lease receivable for the said power unit given under finance lease.

The minimum lease payments receivable and the present value of minimum lease receivable as at 31st March, 2020 in respect of the aforesaid power unit are as under:

Amounts receivable under finance leases

₹ crore

Particulars	Minimum lease payments		Present value of minimum lease payments	
	As at 31st March, 2020	As at 31st March, 2019	As at 31st March, 2020	As at 31st March, 2019
Not later than one year	109.72	97.59	41.05	37.19
Later than one year and not later than five years	433.05	362.99	187.72	145.33
Later than five years	1,165.81	1,101.54	772.86	760.85
Total	**1,708.58**	**1,562.12**	**1,001.63**	**943.37**
Less: unearned finance income	706.95	618.75	-	-
Lease Receivable (refer note 9)	**1,001.63**	**943.37**	**1,001.63**	**943.37**

Unguaranteed residual value of assets leased under finance leases at the end of the reporting period is estimated at ₹ 295.11 crore (as at 31st March, 2019: ₹ 270.33 crore).

Note No. 38 - Service concession arrangement (SCA):

(a) Description of the concession arrangement :

On 1st October, 1992, a service concession agreement was entered into with the Government of Himachal Pradesh ("the Government") to establish, own, operate and maintain 300 MW Hydro Electric power plant at Baspa, Kuppa, Himachal Pradesh ("the power plant") for supply of power to Himachal State Electricity Board. Pursuant to the above, a power purchase agreement was entered with Himachal Pradesh State Electricity Board ("the PPA").

(b) Significant terms of the concession arrangement:

Terms	Particulars
Period of arrangement	40 years from date of commissioning of the power plant and extendable for 20 years at the option of the Government
Commissioning of the power plant	June 8, 2003
Tariff	Approved by Himachal Pradesh Electricity Regulatory Commission (HPERC) having regard to the tariff entitlement under the PPA
Option to purchase	After the expiry of the agreement period, the Government has the option to purchase all the assets and works of the power plant, at mutually agreed terms.
Free power	12 % free power of the electricity generated is to supplied to the Government

(c) Obligation for overhaul:

Under the concession agreement, the Group has to manage, operate, maintain and repair the power plant entirely at its own cost.

(d) Renewal /Termination options:

Termination of the concession agreement can happen before expiry date under the force majeure events and default by either parties of the concession agreement

(e) Classification of service concession arrangement in the Consolidated Financial Statements:

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Intangible asset - Rights under service concession receivable (refer note 6)	783.34	813.60
Financial asset – Receivable under service concession arrangement (refer note 9)	216.80	221.47

Note No. 39 - Employee benefits expense:

Defined contribution plan:

The Group's contribution to National Pension Scheme (NPS) recognized in consolidated statement of profit and loss of ₹ 1.76 crore (Year ended 31st March, 2019 : ₹ 1.77 crore) (included in note 24)

Defined benefits plans:

The Group provides for gratuity for employees as per the Payment of Gratuity Act, 1972. The amount of gratuity shall be payable to an employee on the termination of his employment after he has rendered continuous service for not less than five years, or on their superannuation or resignation. However, in case of death of an employee, the minimum period of five years shall not be required. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service completed. The gratuity plan is a funded plan administered by a separate fund that is legally separated from the entity and the group makes contributions to the insurer (LIC). The group does not fully fund the liability and maintains a target level of funding to be maintained over period of time based on estimations of expected gratuity payments.

The Group makes monthly contributions to provident fund managed by trust for qualifying employees. Under the scheme, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits.

Under the compensated absences plan, leave encashment upto a maximum accumuation of 180 days is payable to all eligible employees on separation of the Group due to death, retirement, superannuation or resignation, at the rate of daily salary.

These plans typically expose the Group to the following actuarial risks:

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.
Interest risk	A fall in the discount rate, which is linked, to the G-Sec rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.
Asset Liability matching risk	The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.
Mortality risk	Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.
Concentration risk	Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31st March, 2020 by M/S K. A. Pandit Consultants & Actuaries. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

A. Gratuity

Changes in the defined benefit obligation and fair value of plan assets as at 31st March, 2020:

₹ crore

Particulars		Defined benefit obligation	Fair value of plan assets	Benefit liability
Opening balance as on 1st April, 2019		**25.22**	**6.55**	**18.67**
Gratuity cost charged to the profit or loss	Service cost	2.65	-	2.65
	Net interest expense	1.95	0.50	1.45
	Sub-total included in profit or loss	**4.60**	**0.50**	**4.10**
Benefits paid		(1.72)	(1.72)	-
Liability Transfer In / (Out)		0.09	-	0.09
Remeasurement gains/ (losses) in other comprehensive income	Return on plan assets (excluding amounts included in net interest expense)	-	(0.10)	0.10
	Actuarial changes arising from changes in demographic assumptions	0.40	-	0.40
	Actuarial changes arising from changes in financial assumptions	2.32	-	2.32
	Experience adjustments	(0.91)	-	(0.91)
	Sub-total included in OCI	**1.81**	**(0.10)**	**1.91**
Contributions by employer		**-**	**-**	**-**
Closing balance as on 31st March, 2020 (Refer note 18)		**30.00**	**5.23**	**24.77**

Changes in the defined benefit obligation and fair value of plan assets as at 31st March, 2019: ₹ crore

Particulars		Defined benefit obligation	Fair value of plan assets	Benefit liability
Opening balance as on 1st April, 2018		**20.57**	**7.13**	**13.44**
Gratuity cost charged to profit or loss	Service cost	2.13	-	2.13
	Net interest expense	1.61	0.56	1.05
	Sub-total included in profit or loss	**3.74**	**0.56**	**3.18**
Benefits paid		(1.11)	(1.11)	-
Remeasurement gains/ (losses) in other comprehensive income	Return on plan assets (excluding amounts included in net interest expense)	-	(0.03)	0.03
	Actuarial changes arising from changes in financial assumptions	0.17	-	0.17
	Experience adjustments	1.84	-	1.84
	Sub-total included in OCI	**2.02**	**(0.03)**	**2.05**
Contributions by employer		-	-	-
Closing balance as on 31st March, 2019 (Refer note 18)		**25.22**	**6.55**	**18.67**

The actual return on plan assets (including interest income) was ₹ 0.40 crore (previous year ₹ 0.56 crore).

The major categories of the fair value of the total plan assets are as follows:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Insurer managed funds	100%	100%

In the absence of detailed information regarding plan assets which is funded with Insurance Companies, the composition of each major category of plan assets, the percentage or amount for each category to the fair value of plan assets has not been disclosed.

The principal assumptions used in determining gratuity for the Group's plans are shown below:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Discount rate	6.69%-6.89%	7.69%-7.79%
Future salary increases	6.00%	6.00%
Rate of employee turnover	3.00%	2.00%
Mortality Rate During Employment	Indian Assured Lives Mortality (2006-08)	Indian Assured Lives Mortality (2006-08)

Sensitivity analysis:

Significant actuarial assumptions for the determination of the defined benefit obligation are discounted rate, expected salary increase and employee turnover. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity of the defined benefit obligation to changes in the weighted key assumptions are: ₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Delta Effect of +1% Change in Rate of Discounting	(2.54)	(2.29)
Delta Effect of -1% Change in Rate of Discounting	2.96	2.68
Delta Effect of +1% Change in Rate of Salary Increase	2.96	2.71
Delta Effect of -1% Change in Rate of Salary Increase	(2.58)	(2.35)
Delta Effect of +1% Change in Rate of Employee Turnover	0.19	0.39
Delta Effect of -1% Change in Rate of Employee Turnover	(0.21)	(0.44)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that change in assumption would occur in isolation of the another as some of the assumptions may be co-related.

The following are the maturity analysis of projected benefit obligations:

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Projected benefits payable in future years		
Within the next 12 months (next annual reporting period)	1.99	1.38
From 2 to 5 years	8.76	7.79
From 6 to 10 years	10.17	7.83
Above 10 years	44.15	49.17
Total expected payments	**65.06**	**66.17**

Each year an asset-liability-matching study is performed in which the consequences of the strategic investment policies are analysed in terms of risk and return profiles.

The Group expects to contribute ₹ 5.69 crore (previous year ₹ 5.91 crore) to its gratuity plan for the next year. The weighted average duration of the plan is 10 years (previous year 13 years).

B. Provident fund

As per Ind AS 19 on "Employee Benefits", employer established provident fund trusts are treated as defined benefit plans. The members of the Provident Fund Trust are entitled to the interest rate declared by the central government under the Employees Provident Funds and Miscellaneous Act, 1952. The shortfall, if any, is made good by the Group in the year in which it arises. According to the defined benefit obligation of interest rate guarantee on exempted provident fund in respect of employees of the Group as at 31st March, 2020 is 8.50% as against the rate of return of plan assets 8.49%. Considering the interest shortfall is not material no provision is made in the books of accounts.

The Group's contribution to provident fund recognized in Consolidated Statement of Profit and Loss of ₹ 9.02 crore (Previous year ₹ 8.75 crore) (Included in note 24)

Actuarial assumptions made to determine interest rate guarantee on exempt provident fund liabilities are as follows:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Discount rate	6.84%	7.79%
Rate of return on assets	8.49%	8.64%
Guaranteed rate of return	8.50%	8.65%

C. Compensated absences

The Group has a policy on compensated absences with provisions on accumulation and encashment by the employees during employment or on separation from the group due to death, retirement or resignation. The expected cost of compensated absences is determined by actuarial valuation performed by an independent actuary at the balance sheet date using projected unit credit method.

D. Employee share based payment plan:

JSWEL Employees Stock Ownership Plan – 2016 (ESOP 2016)

The Group has offered equity options under ESOP 2016 to the permanent employees of the Company and of its subsidiaries who has been working in India or outside India, including whole-time director, in the identified grades of L16 and above except any employee who is a promoter or belongs to the promoter group or a director who either by himself or through his relatives or through any body corporate, directly or indirectly, holds more than 10% of the outstanding equity shares of the Company and Independent directors, Nominee Directors and Non-Executive Directors.

The grant is determined after having regard to various factors and criteria specified in ESOP 2016. The exercise price is at a discount of 20% to the closing market price on the previous trading day of the grant date at the Exchange having highest trading volume or any other price as may be determined by the Compensation Committee but at least equal to the face value of the shares. The option shall not be transferable and can be exercised only by the employees of the Group.

Vesting of the options granted under the ESOP 2016 shall be at least one year from the date of Grant. 50% of the granted options would vest on the date following 3 years from the date of respective grant and the remaining 50% on the date following 4 years from the date of respective grant.

The following table illustrates the details of share options during the year:

ESOP 2016 (Grant Date : 3rd May, 2016)

Particulars	As at 31st March, 2020	As at 31st March, 2019
Outstanding at 1st April	9,27,557	12,79,526
Exercised during the year	5,50,748	2,68,854
Expired during the year	-	83,115
Outstanding at 31st March	3,76,809	9,27,557
Exercisable at 31st March	3,76,809	9,27,557

ESOP 2016 (Grant Date : 20th May, 2017)

Particulars	As at 31st March, 2020	As at 31st March, 2019
Outstanding at 1st April	14,64,361	21,12,536
Exercised during the year	4,49,667	5,43,863
Expired during the year	-	1,04,312
Outstanding at 31st March	10,14,694	14,64,361
Exercisable at 31st March	10,14,694	14,64,361

ESOP 2016 (Grant Date : 1st Nov, 2018)

Particulars	As at 31st March, 2020	As at 31st March, 2019
Outstanding at 1st April	23,23,883	-
Granted during the year	-	23,23,883
Exercised during the year	34,389	-
Expired during the year	3,68,077	-
Outstanding at 31st March	19,21,417	23,23,883
Exercisable at 31st March	19,21,417	23,23,883

The method of settlement for above grants are as below:

Particulars	Grant Date		
	3rd May, 2016	20th May, 2017	1st Nov, 2018
Vesting period	3/4 Years	3/4 Years	3/4 Years
Method of settlement	Equity	Equity	Equity
Exercise price (₹)	53.68	51.80	51.96
Fair value (₹)	30.78	28.88	37.99
Dividend yield (%)	20.00%	20.00%	20.00%
Expected volatility (%)	46.32% / 44.03%	44.50% / 45.16%	42.57% / 43.53%
Risk-free interest rate (%)	7.40%/7.47%	6.90%/6.98%	7.78%/7.84%
Expected life of share options	5/6 years	5/6 years	5/6 years
Weighted average exercise price (₹)	53.68	51.80	51.96
Pricing formula	Exercise Price determined at ₹ 53.68 per share, was at a discount of 20% to the closing market price of Parent Company's share i.e. ₹ 67.10/- at the close of 2nd May, 2016 at Exchange having highest trading volume.	Exercise Price determined at ₹ 51.80 per share, was at a discount of 20% to the closing market price of Parent Company's share i.e. ₹ 64.75/- at the close of 19th May, 2017 at Exchange having highest trading volume.	Exercise Price determined at ₹ 51.96 per share, was at a discount of 20% to the closing market price of Parent Company's share i.e. ₹ 64.95/- at the close of 31st October, 2018 at Exchange having highest trading volume.

Particulars	**Grant Date**		
	3rd May, 2016	**20th May, 2017**	**1st Nov, 2018**
Expected option Life	The expected option life is assumed to be mid-way between the option vesting and expiry. Since the vesting period and contractual term of each tranche is different, the expected life for each tranche will be different. The Expected option life is calculated as (Year to Vesting + Contractual Option term) /2.		
Expected volatility	Volatility was calculated using standard deviation of daily change in stock price. The historical period considered for volatility match the expected life of the option.		
How expected volatility was determined, including an explanation of the extent to which expected volatility was based on historical volatility; and	The following factors have been considered: (a) Share price (b) Exercise prices (c) Historical volatility (d) Expected option life (e) Dividend Yield		
Whether and how any other features of the option grant were incorporated into the measurement of fair value, such as a market condition.			
Model used	Black-Scholes Method		

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Note No. 40 - Project status:

i. Kutehr Project

The Group has resumed the construction / developmental activities of 240 MW hydro power project at Kutehr, Himachal Pradesh ("the project") and has awarded / issued LOI for all the major works out of which various works are under implementation. The carrying amounts related to the project as at 31st March, 2020 comprise property, plant and equipment of ₹ 12.16 crore, capital work in progress of ₹ 267.74 crore and capital advance of ₹ 19.55 crore.

ii. Raigarh Project:

Having regard to pending completion of the power project at Raigarh, chhattisgarh, tying up of long-term power supply agreements and securing the fuel linkages, the Group has assessed the recoverable value of the underlying assets based on the estimate regarding value by sale of freehold land, recoverability of advances for additional land acquisition on leasehold basis and deposits relating to the project and accordingly, provided loss allowance for impairment amounting to ₹ 7.45 crore (Previous Year ₹ Nil).

Note No. 41 - Earnings per share [Basic and Diluted]:

Particulars	**For the year ended 31st March, 2020**	**For the year ended 31st March, 2019**
Profit attributable to equity holders of the Company [₹ crore] [A]	1,099.92	695.13
Weighted average number of equity shares for basic EPS [B]	1,64,17,03,697	1,64,06,17,153
Effect of dilution:		
Weighted average number of equity shares held through ESOP trust	1,97,050	35,413
Weighted average number of equity shares adjusted for the effect of dilution [C]	1,64,19,00,747	1,64,06,52,566
Basic Earnings Per Share [₹] - [A/B]	6.70	4.24
Diluted Earnings Per Share [₹] - [A/C]	6.70	4.24
Nominal value of an equity share [₹]	10.00	10.00

ii) Fair Value Hierarchy:

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are

(a) recognised and measured at fair value and

(b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into three levels prescribed under the accounting standard.

Financial assets and liabilities measured at fair value

The carrying amount of investment in unquoted equity instrument measured at fair value (which are not disclosed below) is considered to be the same as it's fair values.

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019	Level	Valuation techniques and key inputs
Financial assets				
Investment in equity shares	1,045.41	2,052.46	1	Quoted bid price in an active market
Investment in equity shares	30.90	34.88	2	Price derived from sale transaction of the share in an inactive market
Investment in equity shares	7.77	7.77	3	Net Asset value of share arrived has been considered as fair value
Investment in mutual funds	744.07	342.27	2	The mutual funds are valued using the closing NAV
Investment in preference shares	2.54	2.29	3	Discounted cash flow method- Future cash flows are based on terms of preference shares discounted at a rate that reflects market risk
Foreign currency forward contracts	35.26	-	2	The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date.
Financial liabilities				
Interest rate swaps	-	0.36	2	The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows earned on observable yield curves.
Currency option/ forward contracts	-	27.13	2	The fair value of forward foreign exchange contracts and currency options is determined using forward exchange rates at the balance sheet date.
Commodity exchange forward contract	9.73	-	2	The fair value of commodity exchange forward contract is determined using forward commodity rates at the balance sheet date.
Contingent consideration payable	-	177.48	3	Estimated based on the expected cash outflows arising from the fructification of related events

Fair value of financial assets and liabilities measured at amortised cost

The carrying amounts of trade receivables, trade payables, capital creditors, cash and cash equivalents, loan, other financial assets and other financial liabilities (which are not disclosed below) are considered to be the same as their fair values, due to their short term nature.

₹ crore

Particulars	As at 31st March, 2020		As at 31st March, 2019		Level	Valuation techniques and key inputs
	Carrying value	Fair value	Carrying value	Fair value		
Financial assets and liabilities, measured at amortised cost, for which fair value is disclosed:						
Financial assets						
Investment in government securities	12.33	13.36	10.86	11.19	2	Closing price disclosed by the regulatory
Loans	664.96	667.08	720.59	745.86	3	Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
Finance lease receivable *	1,001.63	968.55	943.37	940.32		
Service concession receivable	216.80	236.96	221.47	221.47		
Security deposits	54.27	56.31	52.25	55.90		
	1,949.99	**1,942.26**	**1,948.54**	**1,974.74**		
Financial liabilities						
Borrowings (including current maturities on long-term debt)	9,840.48	9,847.88	10,554.88	10,557.42	3	Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
Lease and other deposits	0.22	0.29	0.17	0.22		
	9,867.84	**9,875.31**	**10,555.05**	**10,557.64**		

** including current and non-current balances*

Valuation techniques and key inputs:

The above fair values were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable input including counter party credit risk.

Sensitivity Analysis of Level 3 financial instruments measured at fair value:

Particulars	Valuation technique	Significant unobservable inputs	Change	Sensitivity of the input to fair value
Contingent consideration payable (Refer note 8)	Expected cash flow	Probability of outcome of contingent event	5.00%	If expected cash outflows were 5% higher or lower, the fair value would increase / (decrease) by ₹ Nil (Previous year ₹ 8.87 crore)
Investment in preference shares	DCF method	Discount rate	0.50%	0.50% increase / decrease in the discount rate would decrease / increase the fair value by ₹ 0.08 crore / ₹ 0.07 crore (Previous year ₹ 0.08 crore / ₹ 0.07 crore).

Reconciliation of Level 3 fair value measurement:

i) Investment in preference shares

₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Opening balance	**2.28**	**2.05**

Closing balance	**2.54**	**2.28**

ii) Contingent Consideration payable

₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Opening balance	**177.48**	**177.48**
Written back (Refer note 8)	177.48	-
Closing balance	**-**	**177.48**

There are no transfers between Level 1, Level 2 and Level 3 during the year.

b) Risk Management Strategies

Financial risk management objectives

The Group's corporate treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Group seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures, wherever required. The use of financial derivatives is governed by the group's policies approved by the board of directors, which provide written principles on foreign exchange and commodity price risk management, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the internal auditors on a continuous basis. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

I. Foreign currency risk management

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilizing forward foreign exchange contracts and currency options as suitable.

The carrying amounts of the Group's financial assets and liabilities denominated in different currencies are as follows:

₹ crore

As at 31st March, 2020:	USD	EURO	INR	Total
Financial assets				
Investments	30.90	-	1,812.12	1,843.02

The Group uses foreign currency forward and options contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and foreign currency required at the settlement date of certain payables. The use of foreign currency forward and options contracts is governed by the Group's strategy approved by the board of directors, which provide principles on the use of such forward contracts consistent with the Group's risk management policy.

The outstanding forward exchange contracts at the end of the reporting period are as under:

Particulars	As at 31st March, 2020	As at 31st March, 2019
No. of contracts	23	45
Type of contracts	Buy	Buy
US $ equivalent (Million)	147.11	202.28
Average exchange rate (1 USD = ₹)	73.55	71.68
INR equivalent (₹ crore)	1,081.99	1,449.94
Fair value MTM - asset / (liability) (₹ crore)	35.26	(39.82)

The outstanding foreign exchange options contracts for loan at the end of the reporting period are as under:

Particulars	As at 31st March, 2020	As at 31st March, 2019
No. of contracts	-	1
Type of contracts	-	Buy
US $ equivalent (Million)	-	33.00
Average exchange rate (1 USD = ₹)	-	69.16
INR equivalent (₹ crore)	-	228.21
Fair value MTM- asset (₹ crore)	-	12.69

Unhedged currency risk position

The foreign currency exposure that have not been hedged by a derivative instrument or otherwise as at balance sheet date are given below:

Particulars	Currency	Foreign currency equivalent		₹ crore	
		As at 31st March, 2020	As at 31st March, 2019	As at 31st March, 2020	As at 31st March, 2019
Payables in foreign currency					
Interest accrued but not due on secured loan	USD	-	99,362	-	0.69
Trade payables	USD	28,48,487	94,27,702	21.47	65.21
Trade payables	Euro	4,664	1,81,410	0.04	1.41
Trade payables	Yen	-	1,24,594	-	0.01

Foreign currency risk sensitivity

The following table details the Group's sensitivity to a 5% increase and decrease in the INR against the relevant foreign currencies net of hedge accounting impact. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year-end for a 5% change in foreign currency rates, with all other variables held constant. A positive number below indicates an increase in profit or equity where INR strengthens 5% against the relevant currency. For a 5% weakening of INR against the relevant currency, there would be a comparable impact on profit or equity, and the balances below would be negative.

Impact on profit / (loss) for the year for a 5% change:

₹ crore

Particulars	For the year ended 31st March, 2020		For the year ended 31st March, 2019	
	5% Appreciation	5% Depreciation	5% Appreciation	5% Depreciation
USD / INR	1.07	(1.07)	3.29	(3.29)
Euro / INR	★	★	0.07	(0.07)
Yen / INR	-	-	★	★

★ *Less than ₹ 50000*

II. Interest rate risk management

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

The following table provides a break-up of the Group's non-current fixed and floating rate borrowings:

₹ crore

As at 31st March, 2020	Net Balance	Unamortised transaction cost	Gross Balance
Fixed rate borrowings	1,218.36	0.70	1,219.05
Floating rate borrowings	8,622.12	46.94	8,669.07
Total borrowings	**9,840.48**	**47.64**	**9,888.12**

₹ crore

As at 31st March, 2019	Net Balance	Unamortised transaction cost	Gross Balance
Fixed rate borrowings	1,389.27	1.17	1,390.44
Floating rate borrowings	9,165.61	54.71	9,220.32
Total borrowings	**10,554.88**	**55.88**	**10,610.76**

The following table detail the nominal amounts and remaining terms of interest rate swap contracts outstanding at the year-end.

Particulars	No. of contracts	Average contracted fixed interest rate (%)	Maturity date	Nominal value (₹ crore)	MTM (₹ crore)
As at 31st March, 2020	-	-	-	-	-
As at 31st March, 2019	1.00	4.12	16th March, 2020	230.86	(0.36)

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's profit before tax for the year ended 31st March, 2020 would decrease/increase by ₹ 43.35 crore (Previous year: decrease/increase by ₹ 44.95 crore). This is mainly attributable to the Group's exposure to interest rates on its unhedged variable rate borrowings.

III. Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored.

JSW Steel Limited, a related party, and state electricity distribution companies (Government companies) are the major customers of the Group and accordingly, credit risk is minimal.

Revenue from operations includes revenue aggregating to ₹ 2,368.05 crore (Previous year ₹ 5,162.65 crore) from one (Previous year : Two) major customers having more than 10% of total revenue from operations of the Group.

Loans and investment in debt securities:

The Group's centralised treasury function manages the financial risks relating to the business. The treasury function focusses on capital protection, liquidity and yield maximisation. Investments of surplus funds are made only in approved counterparties within credit limits assigned for each of the counterparty. Counterparty credit limits are reviewed and approved by the Finance Committee of the Group. The limits are set to minimise the concentration of risks and therefore mitigate the financial loss through counter party's potential failure to make payments

Cash and cash equivalents, derivatives and financial guarantees:

Credit risks from balances with banks and financial institutions are managed in accordance with the Group policy. For derivative and financial instruments, the Group attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

In addition, the Group is exposed to credit risk in relation to financial guarantees given to banks. The Group's maximum exposure in this respect is the maximum amount the Group could have to pay if the guarantee is called on.(Refer note 34)

IV. Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium-term and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the remaining contractual maturities of financial assets and financial liabilities as on reporting date.

₹ crore

	5,127.49	**7,229.99**	**6,557.44**	**18,914.92**

The Group has hypothecated part of its trade receivables, loans, short term investments and cash and cash equivalents in order to fulfil certain collateral requirements for the banking facilities extended to the Group. There is obligation to release the hypothecation on these securities to the Group once these banking facilities are surrendered. (Refer note 16)

The amount of guarantees given on behalf of other parties included in note 34 represents the maximum amount the Group could be forced to settle for the full guaranteed amount. Based on the expectation at the end of the reporting period, the Group considers that it is more likely than not that such an amount will not be payable under the arrangement.

V. Price Risk

The Group's exposure to equity price risk arises from quoted investments held by the Group and classified in the balance sheet at FVTOCI.

The table below summarizes the impact of increases / decreases in market price of the Group's quoted equity investments for the corresponding period. The analysis is based on the assumption that the equity instruments recognised through OCI will on an average increase or decrease by 15% (Previous year 15%) with all other variables held constant.

Impact on other comprehensive income:

₹ crore

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
Increase in quoted market Price by 15% (Previous year 15%)	156.81	307.87
Decrease in quoted market Price by 15% (Previous year 15%)	(156.81)	(307.87)

VI. Fuel price risk management

The Group is currently using for its coal based power plants, imported coal from countries like Indonesia, South Africa, and Australia, among others. The interruption in the supply of coal due to regulatory changes, weather conditions in the sourcing country, strike by mine workers and closure of mines due to force majeure may impact the availability and/or cost of coal. However the Group does not have material fuel price exposure due to significant portion of capacity which is tied up on cost plus basis arrangement.

The Group regularly broadens the sources (countries/ vendor) and maintains optimum fuel mix and stock level. The Group further applies prudent hedging strategies to mitigate the risk of foreign exchange and coal price fluctuations.

The commodity exchange forward contracts entered into by the Group and outstanding are as under:

Particulars	As at 31st March, 2020	As at 31st March, 2019
No. of contracts	1	-
Type of contracts	Buy	-
Coal quantity in metric tonnes (MT)	1,35,000.00	-
Average forward rate (USD / MT)	80.00	-
Nominal value (₹ crore)	81.42	-
Fair value MTM - liability (₹ crore)	(9.73)	-

Note No. 43 - Capital management:

Capital management

The Group being in a capital intensive industry, its objective is to maintain a strong credit rating, healthy capital ratios and establish a capital structure that would maximise the return to stakeholders through optimum mix of debt and equity.

The Group's capital requirement is mainly to fund its capacity expansion, repayment of principal and interest on its borrowings and strategic acquisitions. The principal source of funding of the Group has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings and the capital markets. The Group is not subject to any externally imposed capital requirements.

The Group regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce interest cost, align the maturity profile of its debt commensurate with the life of the asset, and closely monitors its judicious allocation amongst competing capital expansion projects and strategic acquisitions, to capture market opportunities at minimum risk.

Gearing ratio

The Group monitors its capital using gearing ratio, which is net debt divided by total equity, as given below:

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Debt[1]	9,840.48	10,554.88
Cash and bank balances (including current investment in liquid mutual fund)[2]	895.93	504.55
Net debt[(1-2)]	8,944.55	10,050.33
Total equity[3]	11,645.62	11,822.24
Net debt to equity ratio	**0.77**	**0.85**

1) Debt includes long-term and current maturities of long term debt as described in note 16 and note 17.

2) Includes cash and cash equivalents, balances in bank deposits (other than earmarked deposits) and investments in mutual fund as described in note 14A, note 14B and note 7B.

3) Includes equity share capital and other equity as described in note 15A and note 15B.

Note No. 46 - Operating segment:

The Group is in the business of generation of power and related activities having similar economic characteristics primarily operated within India, which is regularly reviewed by Chief Operating Decision Maker for assessment of Group's performance and resource allocation. Accordingly, the Group has only one business segment.

The information relating to revenue from external customers and location of non-current assets of its single reportable segment has been disclosed as below:

a) Revenue from operations

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Within India	8,272.71	9,137.59
Outside India	-	-
	8,272.71	**9,137.59**

b) Non-current operating assets

₹ crore

Particulars	As at 31st March, 2020	As at 31st March, 2019
Within India	19,232.60	20,609.73
Outside India	87.03	99.88
	19,319.63	**20,709.61**

Geographical non-current assets are allocated on the basis of location of assets.

Note No. 47 - Impact of COVID-19:

The Group has continued its operations during lockdown due to outbreak of COVID-19 as the electricity generation is considered as one of the essential services by the Government. The Group's substantial generation and transmission capacities are tied up under medium to long term power purchase / transmission agreements, which insulates revenue of the Group under such contracts. The notices of applying force majeure clause under the power supply agreements from some of the customers have been appropriately responded under legal advice that the prevailing situation is outside the ambit of force majeure clause. This position is further supported by clarification from Ministry of Power that the DISCOMs will have to comply with obligation to pay fixed capacity charges as per the power purchase agreement. Based on initial assessment, the management does not expect any medium to long-term impact on the business of the Group. The Group has evaluated the possible effects on the carrying amounts of property, plant and equipment, goodwill, inventory, loans, receivables and debt covenants basis the internal and external sources of information and determined, exercising reasonable estimates and judgements, that the carrying amounts of these assets are recoverable. Having regard to above, and the Group's liquidity position, there is no uncertainty in meeting financial obligations over the foreseeable future.
